Bristol Construction Updates

The town of Bristol will begin construction to repair the North side of the Bristol ferry dock on Monday, September 9th.

There will be no disruption to vehicle or passenger ferry service during the construction project. However the flow of traffic in the parking lot and the loading area for the ferry will be altered.

Vehicles waiting to board will no longer line up by the ferry on the north side (to the right if you are facing the water) of the dock. Follow signs and crew directions for where to line up for ferry boarding.

There will be only one-lane for loading and unloading the ferry and this lane will need to be kept clear. This will allow vehicles on the ferry to unload, prior to vehicles lining up to load the ferry.

Do not pull down to the ferry for any reason until directed by the crew. If you need assistance transporting groceries or luggage from the entrance of the lot to the ferry, call the office at 401-683-0430 and we will have crew assist you.

Please note that the lot will be closed to all parking during construction.

We ask that everyone please pay attention to signs in the parking lot explaining changes to traffic patterns and follow crew directions at all times. There will be active construction going on, in the lot and on the dock, so please use caution when walking and driving in this area.

The ferry schedule changed September 1st. The fall schedule runs through November. Columbus Day and Veterans Day will run a Sunday schedule. Reservations can now be made online through November.

Prudence Parking Lot

As the summer season winds down we find vehicles being left in the Prudence parking lot for longer periods of time. Please follow the signs and do not leave vehicles for longer than the sign dictates. The center of the parking lot is for day parking only and two rows of vehicles should be able to park in this area. Officer Tavernier has again offered to give a ride to anyone who needs to move their car from the lot to their home to avoid vehicles being left for extended periods of time.

The diagram above shows where parking is allowed and for how long vehicles can be parked (click picture to view full).
